

THE STANDARD

The Full *Reset* Checklist.

A complete top-to-bottom reset. This is the documented standard we follow in every home, so you know exactly what you are getting before you book.

WHAT MAKES IT DEEP

Five things most cleanings *miss*.

A Full Reset follows a thorough checklist, but the checklist is not what makes it deep. The process is. Here is what separates a reset from a routine clean.

01 • Three-step dusting

Dry dust, then detail dust, then wet wipe. High reach included. Dust is removed, not moved.

02 • Extensive wet work

Trim, doors, baseboards, and frames get a real wet clean, not a pass with a duster.

03 • Bathroom detailing

Showers, tubs, grout, fixtures, and glass scrubbed until the hard water and soap scum are actually gone.

04 • Kitchen deep clean

Cabinet fronts, backsplash, sink, and appliance fronts degreased top to bottom.

05 • Time and precision

Significantly more time per room. The corners, edges, and overlooked areas most cleanings skip.

All in, no surprises.

Every Full Reset includes all labor, all non-toxic supplies, and all equipment. No hidden fees, and nothing on this list is an upcharge.

What we clean in *every home*.

Every room

- Cobwebs removed, high-reach included
- Light fixtures, fans, and vents dusted and wiped
- Trim, doors, and window sills dusted and wiped
- Blinds dusted
- Mirrors cleaned and polished

- Bedrooms and offices, every-room treatment

Available as add-ons

- Inside the oven
- Inside the refrigerator
- Interior windows
- Blinds washed
- Basement or sunroom
- Garage sweep-out

A note on blinds. We are happy to dust blinds. Because they are delicate by nature, we cannot be responsible for damage that occurs during the process.
